

# Garden Walk Collection

POWERBOND® + MODULAR

Inviting  
spaces for  
body, mind  
and soul.

 **Tarkett**

## Creating an atmosphere of betterment.

Using soft nuance and fluid movement, the Garden Walk Collection welcomes residents and guests with the warmth and comfort of relaxed living, creating an ideal setting for healing, lifestyle and leisure. This warm array of color and pattern gently alludes to organic materials from the outdoor environment and embraces the imperfect beauty of the natural world. Each sophisticated design carries deep, soothing tones that create a tranquil atmosphere and lends itself to feelings of well-being. Inviting, reflective and restorative, these spaces are designed for the overall wellness of body, mind and soul.

## The beauty of the bond.

Introduced in 1967, Powerbond® has always been ahead of its time. And now, more than 50 years later, there's still nothing else like it on the market. With the look and softness of carpet and the performance of resilient, Powerbond's chemically welded seams create a wall-to-wall moisture barrier that allows leaks and spills to be easily extracted without reaching the substrate. Its unique construction of nylon and closed-cell cushion produces a floorcovering that's integral, inseparable, impermeable—and downright incredible.

# Doing Good—Together.

At Tarkett North America, we believe that together, we can make a positive impact on people and the planet. That's why we're Doing Good— Together, connecting our sustainability efforts with what our customers value and our world needs. It's an active, living commitment to create a future where people and the planet prosper in balance. Where sustainable flooring solutions don't just perform. They inspire.

The Garden Walk Collection includes Tarkett's new Eco-Ensure™ soil protection technology, a fluorine-free chemistry based on a mixture of common organic elements found in the natural environment: carbon, hydrogen, oxygen, sodium, sulfur and nitrogen. Eco-Ensure has received the *Cradle to Cradle*® Product Innovation Institute's Gold Level Material Health Certificate, and is now used on all soft surface products.

## DESIGNING FOR LIFE

Developing products based on *Cradle to Cradle*® principles that contribute to people friendly spaces AND respect the planet's natural capital.

## CLOSING THE LOOP

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling, and elimination of waste.

## DRIVING COLLABORATION

Inviting others to join us in Doing Good through education, collaboration, transparency, and communication.
